OBJECTIVE

Motivated Computer Science student with strong problem-solving skills and experience building web and mobile applications through personal and academic projects. Seeking professional experience in software development and contributing to team-based projects that enhance user experience and system performance.

EXPERIENCE

Summer 2024 & 2025

Camp Leader — Colonie de Vacances

Mini Club Antoura

- Supervised groups of children in educational and recreational activities.
- Planned and coordinated events requiring organization and teamwork.
- Developed strong communication, leadership, and adaptability skills.

2025-Present

Freelance Web Developer

Remote

- Designed and deployed websites for clients using HTML, CSS, and JavaScript.
- Created custom solutions using Flask and Django based on client needs.
- Managed client communication, deadlines, and revisions independently.

EDUCATION

September 2024

Expected Graduation: 2027

Bachelor's Degree in Computer Science

Notre Dame University – Louaize (NDU)

Focused on developing strong analytical and programming skills through project-based coursework.

PROJECTS

ORESS

University Schedule Manager

- Developed a scheduling platform using Django (Python) and JavaScript for students to organize timetables and compare schedules.
- Implemented an AI feature that recommends optimized combinations and works as a virtual advisor.

SORESS

Web API for University Data

- Developed a Django-based API to handle course data retrieval, allowing mobile and desktop clients to access structured university information.

MoneyTrack

Expense Tracker App

- Created a mobile app prototype with Flutter to track expenses and generate summaries.
- Focused on clean UI design and user-friendly interaction.

Syslink

Freelance Web Projects

- Designed and developed responsive websites for local clients using HTML, CSS, and JavaScript. Focused on clean UI, SEO optimization, and client requirements.
